**Glufix 1 oz (Kx-612) ➔**

Glufix is the only adhesive specially conceived for kitesurfing equipment. Ultra resistant and flexible, Glufix will allow you to make permanent and durable repairs on your kitesurf equipment. Used with Fiberfix, one Glufix tube can allow you to repair a tear as long as 4' long!

**Fiberfix (Kx-0815) NEW!**

Fiberfix is the reinforcement fiber to be used with Glufix. This self-adhesive fiber increases up to 10 times the resistance of a repair. In order to have a permanent, ultra-resistant, esthetic repair in a record time, you simply have to join the 2 parts of a tear together with the Fiberfix and add a layer of Glufix over it. 7 colors (colours) package. Size: 4' each

**Talkine (kx-0407)**

This is the essential ingredient to avoid bladder damages when putting them back in place after a repair. This silky white powder will allow you to easily reinsert your bladder without twisting. Qty: 3oz.

**Self-Adhesive Dacron**

(kx-0403, kx-0404, kx -0405, kx-0816, kx-0818, kx-0818)

This self-adhesive dacron tape is ideal to reinforce a repair on the leading edge or on the struts. The tape also allows you to make a quick repair on any part of your kite. Available in white, black, green, red and blue. Size: 2"x 5'each.

**Ultra-Adhesive Bladder Patches (kx-0406)**

Bladder leak? No problem ! KiteFix's ultra-adhesive patches are a must. Extremely adherent, flexible and with no glue to add, they allow you stop a leak very quickly. Distributed in large stripes, you simply have to cut out the size needed. Size: 3"x 7" (one stripe/pk)
